Experience

[Ipak Yuli Bank](#) (May, 2025 - Present) - **Frontend Developer** | Vue, JavaScript

- Developed and designed user interfaces and dashboards for internal banking systems, enabling corporate client information management and process tracking to streamline operations and enhance user experience
- Refactored legacy Vue codebase to modern frontend standards, improving maintainability and consistency
- Collaborated with backend and design teams to ensure secure, efficient, and user-friendly interfaces for internal banking operations

Projects

[Sketchvue](#) | Vue, JavaScript

A small Figma-like app built with **Vue 3**. This project was created as a learning experiment to understand and explore the **HTML5 Canvas API** and how to integrate it with **Vue 3's** reactivity system.

- Draw basic shapes like rectangle, line, ellipse, frames, text on a canvas
- Select, move and style shapes

[Formify](#) | React, TypeScript, Express, PostgreSQL

A platform that allows users to create, share, and manage forms dynamically.

- Implemented user authentication with role-based access and integrated an automated email notification system for new registrations
- Stored data securely using Neon PostgreSQL and integrated Google Cloud for image uploads

Education

[WIUT](#) (Expected May 2026) - Bachelor of Business Information Systems

- Networking Operations, Object Oriented Programming, Introduction to Statistics and Data Science, Database Systems Development, Web Application Development
- GPA:

[ALWIUT](#) (Sep, 2020 - May, 2022) - High School

- Algebra, Geometry, Calculus, English
- GPA: 4.5 / 5.0

Skills

Programming Languages: JavaScript, TypeScript, Go, C++

Frameworks: React, Vue, Next

Database: PostgreSQL, MongoDB

Tools: Git, Docker, NeoVim, VSCode, Linux, Arch

Soft: Teamwork, Problem-solving, Communication, Adaptability

Languages: Uzbek (Native), English (Fluent), Russian (B1)
